#### **A Brief Report**

On 26<sup>th</sup> September, 2019, Thursday, a plastic awareness campaign was held at villages. The NCC cadets actively participated in the program. The program was organized by CSSR & SRRM Degree & Pg college.

The program started with the introduction of volunteers and organizing team followed by presentation about the plastics and its impact upon human health and environment. Students were amazed knowing that plastics are made of petroleum product and gases found in earth. The two way communication between the presenter and the students gave outstanding result in terms of learning and sharing knowledge. Moreover, students became clear about the effects of plastics on human health and how it affects our body like endocrine glands causing obesity, heart disease, male genital abnormalities, cancer, autism and what not.

On questioning the students, "How can we save our environment from poly bags?? amazing feedbacks as minimization of plastics, using eco bags like jute bags, paper bags, cotton bags, were heard from the students. The enthusiastic mass showed more of their concern after knowing the 3R Principles, i.e., reduce, reuse and recycle. They learned how they can create awareness to save our environment from plastic bags as well.

During the open floor discussion session, one of the questions where everybody cheered for the answer was, "Why people are still using plastics knowing that plastics are harmful?" and the smile of the students were priceless after getting the most satisfying answer i.e. It's cheap , easily available.

After accomplishing the objective of the program, i.e. to aware the children about minimization of plastic bags and promotion of green bags.

The overall program was more fruitful. The concern of the students and lecturers towards the campaign made it more prosperous. Moreover, we saw the perspective change within the students throughout the program. The volunteers seemed glowing with the response they got from the huge family of CSSR & SRRM Degree & Pg college. If not more, we are sure that those students would be responsible citizens who care for the environment and reduce use of poly bags as we do.

A tree plantation drive was observed by the NCC cadets of CSSR & SRRM Degree & Pg college on 27<sup>th</sup> September 2019 . The main aim of this drive was to spread and create awareness to protect the environment from degrading. The programme started with an influential speech from our principal on the effects of global warming and the importance of trees in our lives. Upon his instructions, the program further followed by students planting saplings in the village. The event was a success as each student contributed profoundly for this drive. Later the event was ended by taking an oath to prevent the environment from pollution by contributing little in our daily life.

### **A Brief Report**

Plastic Awareness Rally was conducted 1<sup>st</sup> October 2019 for the students, aiming to provide factual information about the types of plastic pollution we create here and suggest changes each one of us can incorporate into our daily lives. That will have an immediate impact on our environment and change it for the better. The students actively took part and gathered insights on the environment and how to reduce the use of plastics.

Plastic pollution is a huge environment and health issues as it harms us in more than one way such as it clogs drains, causes visual pollution and proves fatal for stray animals.

The Day will raise awareness and urge governments, industry, communities, and individuals to come together and explore sustainable alternatives and urgently reduce the production and use of single-use plastic that pollutes oceans, damages marine life and threatens human health.

The aim of rally is to create awareness among the people on the hazards of single use of plastic and to motivate them towards the use paper or fabric (Cotton or Jute) bags and to create a plastic free environment.

Plogging was observed by the NCC cadets of our college on 7<sup>th</sup> December 2019. Staff members and students participated and collected the plastic waste from the street. Plogging is a combination of jogging with picking up litter . It started as an organised activity in Sweden around 2016 and spread to other countries in 2018, following increased concern about plastic pollution. As a workout, it provides variation in body movements by adding bending, squatting and stretching to the main action of running, hiking, or walking.
